

At Capital Rx, your health is our top priority. We prepared the Liberty Formulary (drug list) to ensure that you have access to a robust offering that meets your needs. This list of drugs is covered by your pharmacy prescription benefit. Some drugs on this list that display as covered on the formulary, may not be covered if your plan does not include coverage of certain categories. If you have any questions regarding your specific coverage, please call the number on the back of your member ID card.

The Liberty formulary is:

- Based on the recommendations of a committee of highly skilled physicians and pharmacists that review drugs regulated by the United States Food and Drug Administration (FDA)
- Inclusive of drugs regulated by the United States Food and Drug Administration (FDA)
- Ensures clinical efficacy, safety, and cost considerations
- Evaluated for financial considerations based on the review of market trends and driving the lowest net cost products where applicable
- Subject to change throughout the year

Please note: drugs the FDA newly approves will not be covered until the committee has been able to fully evaluate them.

Your pharmacy prescription benefit covers many prescription drugs, but some exclusions may apply. An alternative covered drug will be available if a drug is not covered. Drugs that have not received FDA approval or over-the-counter (OTC) equivalents may not be covered.

Please use this list as a guide to talk to your doctor about prescribing covered medications that are appropriate for you, as this may lower your out-of-pocket costs. For the most up to date version of the Liberty Formulary, please visit www.cap-rx.com.

How to Navigate this List:

Each prescription drug product is placed in a Tier from 1 to 3 that determines your cost-share:

- Generic (Tier 1)
- Preferred Brands (Tier 2)
- Non-Preferred Brands (Tier 3)

Generic drugs are displayed in *lowercase italicized lettering*. Brand drugs are displayed in UPPERCASE LETTERING. Brand drugs may be removed from your drug list after a generic equivalent becomes available. Generic drugs generally have the lowest cost share.

Drugs that do not appear on this list are excluded under the Liberty Formulary. If your prescribed medication is not covered, please contact your doctor to see if a covered alternative is right for you. If your prescriber determines that you require a drug that is not covered on the Liberty Formulary, a drug exception request with clinical documentation may be submitted.

If your plan offers a prescription drug benefit for preventive drugs listed under the Affordable Care Act or a Health Savings Account, the drugs will be flagged below. These drugs may be available at \$0 or a lower cost share than regularly tiered drugs depending on your benefit.

Additional restrictions may apply and will be indicated next to the drug on the list below. Some drugs may only be covered for members within a certain age range or gender due to recommendations based on FDA-approved labeling and clinical practice guidelines. Some drugs are subject to prior authorization, step therapy, or quantity limits. Please reference the legend below for more information.

Formulary changes occur on a quarterly basis. Once a new generic is launched, the brand will be excluded from formulary two quarters following the date of the generic medication launch.

Medications with a Specialty Drug flag are used to treat complex medical conditions (e.g., hepatitis, multiple sclerosis, and hemophilia) and require special handling, administration, and member care management. Depending on your pharmacy benefit design, specialty drugs may be part of a benefit with specific coverage and copay requirements that differ from drugs in Tiers 1 – 3. If you do not have a defined specialty benefit, your copay may be based on whether the drug is generic or BRAND, therefore Tier 1 or Tier 3 copays may apply.

Note that some drug classes may be excluded by your plan or not covered on your pharmacy benefit. If you have questions about your coverage, please call the number on the back of your member ID card

For the most up-to-date Formulary Drug list visit our website at cap-rx.com.

LEGEND

TIER	DESCRIPTION	
1	Generics	
2	Preferred Brands	
3	Non-Preferred Brands	

TYPE	DESCRIPTION	
QL	Quantity Limit	There is a limit on the amount of this drug that is covered per prescription, or within a specific time frame.
PA	Prior Authorization	You (or your physician) are required to get prior authorization before you fill your prescription for this drug. Without prior approval, we may not cover this drug.
ST	Step Therapy	In some cases, you may be required to first try certain drugs to treat your medical condition before we will cover another drug for that condition.
GL	Gender Limit	This prescription drug may only be covered for a single gender.
AL1	Age Limit	This prescription drug may only be covered if you meet the minimum or maximum age limit.
S	Specialty Drug	Specialty drugs are high-cost drugs used to treat complex or rare conditions, such as multiple sclerosis, rheumatoid arthritis, hepatitis C, and hemophilia.
QLC	Quantity Limit (Custom)	There is a limit on the amount of this drug that is covered per prescription, or within a specific time frame.
ACA	Affordable Care Act	Affordable Care Act
